Pest Control

We coordinate pest control through specialist partners, with a program tailored to the property and the findings of the site inspection.

CORE DELIVERABLES & SCOPE OF SERVICE

Service Component	Scope & Execution Details
Site Inspection & Risk Mapping	Thorough on-site inspection to identify active pest infestations, harborages, structural vulnerabilities, and potential entry points.
Targeted Treatment & Prevention	Customized, safe, and effective treatment protocols combined with proactive exclusion and preventive measures.
Continuous Monitoring	Ongoing tracking and bait/trap station monitoring tailored to the specific operational environment of the property.
Flexible Intervention Schedules	Available as rapid one-time corrective interventions or scheduled recurring protection programs.
Documentation & Follow-Up	Comprehensive post-visit service reports, actionable hygiene/structural recommendations, and scheduled follow-up inspections.

ENGAGEMENT & OPERATIONAL FRAMEWORK

Target Sectors	Restaurants, Cafés, Hospitality, Commercial Offices, Warehouses & Residential Properties
Engagement Models	Scheduled Recurring Protection Programs & One-Time Targeted Interventions
Key Outcomes	Pest-free operations, audit-ready visit documentation, proactive entry-point sealing, and specialist partner execution
